Craig Hall serves as the Executive Fellow focused on "digital value" within the Center for Finance Strategy Innovation at Jindal School of Management. Craig is also a member of the University of Texas (Dallas) Computer Science Advisory Board helping with corporate and community insight for the Erik Jonsson School of Engineering and Computer Science.

He is the founder and CEO of Caudicum Company which is a blockchain development boutique for enterprise solutions requiring cryptologic and identity/governance solutions to allow legacy systems to operate in secure distributed cloud and internet communications (block-grading existing companies).

Craig has worked in government, major global companies and start-up organizations with projects that have won significant acclaim including Technology Hall of Fame at the Smithsonian Institution 2000 (LVLT), Bronze technology innovation award from Wall Street Journal in 2009 (VNL), and World Economic Forum's Pioneer Technology Award in 2010. He graduated from the University of Utah and has served on trustee technology and advisory committees at Carnegie Mellon University and Columbia University Graduate School of Business.
